

Gastwerk
HOTEL HAMBURG

A photograph of a hotel room with a warm, industrial aesthetic. The room features exposed red brick walls and large, arched windows with light-colored curtains. In the foreground, a bed is covered with a dark, patterned blanket. To the left, a bedside table holds a lamp and a water bottle. In the center, a brown leather armchair sits on a beige carpet. To the right, a wooden desk with a chair and a small television is visible. A dark wooden coffee table is in the foreground on the right. The overall lighting is warm and inviting.

LIVING IN A LOFT AMBIANCE. A UNIQUE EXPERIENCE.

Satellite TV, minibar, safe and a docking station in all rooms. Air conditioning in atrium rooms and business lofts. illy coffee machines in lofts and suites.

You can look forward to a special type of hotel experience in each of the 141 Gastwerk rooms, lofts and suites. Warm colours and fine materials form a pleasant contrast to the industrial architecture of steel and concrete.

Flooded with natural light, the spacious feel gives the rooms a lightness and warmth that make them a cosy home from home. It's an experience that we offer in six different categories.

The variety and quality of Hamburg's gastronomy is legendary. Sample it here, where regional and seasonal classics are creatively combined in a modern way using the best ingredients from around the world.

Also try something that is beloved by Hamburg natives: steaming hot pasta served in a parmesan wheel with grated truffles or the day's catch from the seas of the world grilled and filleted in front of your eyes.
